PROFESSIONAL EXPERIENCE

VISA

Director of Engineering

Bangalore, India
Apr 2023- Aug 2025

- Led strategic collaborations on PFD Technology initiatives involving over 5 cross-functional teams, boosting Visa's cyber threat detection accuracy by 30%, and enhancing network security across 200+ global regions.
- Architected and delivered fraud detection and prevention platforms, which collectively defended over 10 million e-commerce transactions monthly and contributed to a 25% reduction in fraud risk.
- Translated complex business challenges into actionable specifications and detailed technical designs, accelerating delivery timelines by 20% on average.

ORACLE

Senior Engineering Manager

Bangalore, India
Jan 2021- Sep 2022

- Led a high-performing engineering team in delivering cloud-native, fault-tolerant enterprise software solutions that supported mission-critical operations and ensured 24/7 system reliability.
- Directed the development of Oracle Integration Cloud implementing agile methodologies to enhance platform connectivity across diverse enterprise systems and accelerate feature delivery.
- Upgraded Oracle Cloud Adapters SDK by integrating REST API support, streamlining cloud service interoperability and diminishing onboarding time for developers by 30%.

VMWARE

Engineering Manager

Bangalore, India
Mar2019- Jan 2021

- Led a cross-functional team of over 20 technologists across BI, Data Visualization, and J2EE, delivering solutions for core business verticals (Bookings, Reviews, Newsletters) that supported over 5,000 enterprise users across the organization.
- Orchestrated the Customer 360 migration from SAML, enabling 50% faster authentication processes and supporting millions of secure user sessions annually.
- Coordinated across 10+ business units, collaborating with Business Development Managers and service line leaders to align technical strategies with revenue-generating initiatives, contributing to a 15% increase in operational efficiency and a notable boost in customer satisfaction scores.

IPSOFT GLOBAL

Bangalore, India

Team Lead

Jul2017- Mar2019

- Led design and development efforts on *Amelia*, a cutting-edge Virtual Agent platform, contributing to its recognition as an industry leader in conversational AI.
- Co-engineered a goal-oriented dialogue system that improved task completion accuracy by 30%, enabling efficient, human-like interactions across customer support domains.

SOCIETE GENERALE

Team Lead

Bangalore, India

Jul2014- Jun2017

- Managed a team of 7 engineers while actively contributing as an individual contributor, ensuring both team productivity and hands-on delivery of high-priority features.
- Led product enhancement initiatives, identifying critical areas for improvement and developing an in-house XML Parsing tool that reduced data processing time by 40% and improved integration efficiency.

INFOSYS

Senior Software Engineer

Bangalore, India

Mar2010-Jun2014

- Developed critical Java modules for the Alliance platform in the property insurance domain, contributing to a 20% improvement in claims processing efficiency.
- Executed thorough unit testing using JUnit, ensuring 95%+ test coverage and significantly reducing production defects.
